

SCOTT CARNEGIE

Digital transformation of business processes, customer interactions and business models will define whether organizations sink or swim in the connected world. I am looking for the opportunity to innovate, educate and motivate as part of a dynamic team leading in cloud technologies to help others unlock potential and increase productivity.

Education

Academic

B. Sc. Engineering Physics 2013
Queen's University Kingston, Ontario
Overall GPA of 3.9

Professional

- Angular 4 - The Complete Guide Udemy IP
- The Complete ASP.NET MVC 5 Course Udemy 2016
- Customer Immersion Experience Facilitator Microsoft 2016
- Front End Development Course Free Code Camp 2016

Experience

Director, Project Delivery and Operations 10/2015 - Current
Orangutech Ltd. Ottawa, Ontario

I have had the opportunity to work as a Dynamics CRM and SharePoint developer, as well as work as a technical representative for our partners: Nintex, Harmon.ie and Connecting-Software. I am currently leading the development team, with responsibilities such as engaging our clients, scoping projects and managing internal resources.

Barry Doucette - Chief Executive Officer

Intermediate Mechanical Engineer 6/2013 - 9/2015
Hatch Ltd. Toronto, Ontario

At Hatch I started in the Project Delivery Group where I worked on the engineering team for a number of metal processing projects, with key tasks including equipment sizing, writing RFPs and managing vendors. I later transferred to the Furnace Technologies Group where I developed heat transfer models for a smelting furnace redesign based on site data.

Bruce MacKay - Managing Director
